ATS ONLINE

Online Interactive Courses for Students

Online Interactive Courses feature the same engaging video but include teaching, testing and tracking delivered through our LMS. When questions are answered incorrectly the program stops, backs-up and replays the information. This formative assessment tool confirms understanding and challenges the student. Courses average 1-hour in length. This model is intended for fire departments, EMS organizations and facility fire brigades who train their own employees. Regional Fire Districts, educational institutions and academies please contact your ATS Training Consultant for pricing.

DRIVER/ OPERATOR

Emergency Vehicle Operations

The priority for all emergency vehicle operators (EVOs) is to ensure the safety of themselves, their crew, their patients, and the public. Having the skills and competency behind the wheel is key. This 4-part series is designed to enhance your driver's training curriculum and provide essential information regarding the physical forces of vehicle operations, and the laws and regulations that apply to the EVO.

Demonstrations include vehicle inspections and routine maintenance checks, defensive driving techniques, intersection safety, and the maneuvering skills required for safe and successful vehicle operations according to the NFPA®, IAFC, and NAEMT. Title run-times approximately 15-30 minutes.

EMERGENCY OPERATIONS

Wildland Urban Interface Firefighting for the Structural Firefighter

This 7-part series presents the information a structural firefighter needs to know when called to support operations at wildland or WUI fire. Strategies used in the wildland and WUI environment require unique knowledge and skills that are different from structural fire response.

This series can assist fire service members in meeting the training requirements of NFPA® 1051 and 1143. Content also reflects recommendations from the National Wildland Coordinating Group (NWCG) and the National Interagency Fire Center (NIFC). Title run-times approximately 15-30 minutes.

DVD Titles	Product Code	Price

EMERGENCY OPERATIONS

General Aviation Response For Structural Firefighters

This 4-title series presents important information that a structural firefighter needs know when responding to a general aviation incident. Knowledge, training, and skills are essential for rescuer safety and for the safety of the pilot, passengers, and others on scene. Title run-times approximately 15-30 minutes.

DVD Titles	Product Code	Price
1. General Aviation & Airport Familiarization	RGA001DVD	\$225
2. Aircraft Familiarization	RGA002DVD	\$225
3. Emergency Planning & Incident Response	RGA003DVD	\$225
4. Crash Response	RGA004DVD	\$225

Vehicle Extrication

Vehicle crashes are a leading category of response for fire/rescue personnel. Safety and success on scene depends on solid up-to-date training in basic operational procedures and knowledge of tools and techniques for extrication operations. This series teaches to the standards of NFPA® 1001, 1006 and 1670. Title run-times approximately 15-30 minutes.
